

### Finding a Provider in the Online Provider Search Tool

- Go to [www.riverviewprovidergroup.com](http://www.riverviewprovidergroup.com) and click on 
- There are two main ways to search for providers:
  - Address Search, which allows you to search for providers closest to a certain location or area.
  - Name Search, which allows you to search for a specific provider.
- When trying to find providers for an employee to treat with, an address search will be best to provide all options available to the employee.

- Select
- Enter the exact address, or enter the city, state, and zip.
- Select the desired search distance (miles)
- Select the provider type needed
  - For primary treating providers- select Initial Care, General Medicine, and/or Treating Providers
  - For a specialist- select the provider type and specific specialty
- Click on 

- When completing a Name Search

- Select
- Select Texas from the drop-down options
  - When searching for a specific provider, enter the provider's last name in the "Provider Name" field. Note: Entering only the last name will help find results, if the provider participates with River View Provider Group.
  - If searching for a specific group, enter the group name in the "Group Affiliation" field. Note: orthopedic groups can be listed as orthopedic or orthopaedic, depending on the group spelling.
  - Other search options include the TIN (Tax ID) or phone number.
- Note: For best results, only search one field at a time.
- Click on

Find Providers
